HIGHLIGHTS NOT TO MISS IN 2018

Overall in Virginia

- In 2016, tourism in Virginia generated \$24 billion in revenue, which supported 230,000 jobs and provided \$1.7 billion in state and local taxes for the Commonwealth. Dollars invested in tourism are proven to provide a 7:1 return in tax revenue for Virginia, and grant awards and matching funds provide a stimulus to localities seeking to increase tourism, visitation, and revenue.

VIRGINIA
IS FOR
OYSTER
LOVERS

#VAOYSTERS

The best food tells a story of the place it is from. Eating an oyster in Virginia captures the character of our waters with one quick, complex taste. The Virginia oyster tells visitors a story in every shell. This is why Virginia is for Oyster Lovers.

Growing in the world-famous Chesapeake Bay, the Atlantic Ocean, and its tributaries, Virginia oysters thrive in eight different regions producing oysters with distinct flavors, offering an oyster for every palate. The flavor of “The Virginia Oyster” from each region is unique, unlike any others in the world (a concept called “merroir,” similar to the wine concept “terroir”). These exceptional tastes range in salinity, creaminess, and sweetness.

The Virginia Oyster pairs perfectly with another recognized Virginia product: Wine! Some of our oyster regions share watersheds with Virginia wineries, proving the point that “what grows together, goes together.”

Oyster Travel Experiences

- **The Virginia Oyster Trail** connects producers, farmers, purveyors, seafood restaurants, and raw bars in Virginia’s distinctive bay and river towns for an authentic oyster tourism experience.
- Visit **Merroir** for the ultimate oyster “tasting room” experience. Featuring the celebrated farms of Rappahannock Oyster Company, everything is served raw or cooked on an outdoor grill, small-plate-style, and paired with craft brews and world-famous wines.
- Sign up for the **Chef’s Table Tour** at Pleasure House Oyster Farm. Hosted by Capt. Chris Ludford, owner and oyster farmer, this is a dining experience you won’t forget as you stand in waders knee-deep in the Lynnhaven River at a table set up directly in the water at the oyster farm.

VIRGINIA IS FOR SPIRITS LOVERS

Virginia is the Birthplace of American Spirits—the first batch of whiskey was distilled right here in 1620. From there, George Washington went on to be the biggest producer of Virginia whiskey during his time, producing more than 11,000 gallons in 1798 alone. To honor these roots, **George Washington’s Rye Whiskey** was recently named the Official State Spirit of the Commonwealth of Virginia. The unaged whiskey is produced just twice a year using the same recipe and 18th century methods as in Washington’s day and can only be purchased at Mount Vernon.

Today, Virginia boasts more than 45 distilleries that are making some of the finest whiskey, bourbon, vodka, moonshine, and liqueurs in the United States, with more opening regularly.

New Virginia distilleries

- One of two distilleries in Virginia Beach, offering a portfolio of great tasting spirits, is **Tarnished Truth Distilling Company** at **The Cavalier**. The distillery will open its door in early 2018 as part of the highly anticipated renovations of the historic hotel. The distillery’s product portfolio will consist of its flagship bourbon, rye whiskey, and a special release.
- **Twin Creeks Distillery** opened August 2017 in Henry and **Franklin County Distilleries** opened December 2017 in Boones Mill, both in Franklin County, the “Moonshine Capital of the World.”
- **Devils Backbone Distilling Company**, Roseland, opening January 2018, will distill gin, silver rum, and fine brandy (next to Devils Backbone Brewing Company in Nelson County).
- **Ironclad Distillery** tasting room will open in 2018 in Newport News.
- **Filibuster Distillery** opened October 2017 in Maurertown, Shenandoah County, using locally sourced corn.
- **Dry Fork Fruit Distillery** of Meadows of Dan in Patrick County plans to move its entire production to downtown Danville.

HISTORY
LOVERS

#VAHISTORY

Virginia is an American history icon. As the first, largest, and most prosperous of the British colonies in America, Virginia is home to four of the first five presidents of the United States, and eight in total-more than any other state. Homes of the first four presidents (George Washington, Thomas Jefferson, James Madison, and James Monroe) have been and/or are in the process of major upgrades including renovations and exhibit expansions.

- The most visited historic estate in the U.S., **George Washington’s Mount Vernon** will reopen its Revolutionary War Theater in early 2018, marking the completion of a year-long \$2.2 million renovation to the 4-D theater and an overhaul of the feature film. The theater, which first opened in 2006, features state-of-the-art 4-D effects, including: snowfall, fog, and rumbling seats to tell the story of General George Washington’s major victories during the American Revolution. With these updates, guests will feel like they are in the midst of the action of the Revolutionary War. The new 17-minute film focuses on the same

major battles as its first iteration: Washington’s victories in Boston, Trenton, Princeton, and Yorktown. The updated production includes improved live action and animated sequences, as well as a two-minute pre-show that provides background of the causes of the Revolution.

- **George Washington’s Ferry Farm** in Fredericksburg has recreated the house where George Washington spent his youth. The George Washington Foundation is charging forward with its multi-year venture to physically develop George Washington’s Ferry Farm into an outdoor living museum.
- **Thomas Jefferson’s Poplar Forest Parkway** will be a trail system that connects visitors to the deep history of Thomas Jefferson’s Poplar Forest while also serving as a recreational opportunity for local residents. The trail systems are designed to be implemented in phases and, when complete, will provide six miles of trails that traverse the majority of its 600 acres.

- In 2017, James Madison’s Montpelier opened **The Mere Distinction of Colour**, a groundbreaking exhibition on slavery. The culmination of nearly two decades of historical and archaeological research, this exhibition explores how the legacy of slavery impacts today’s conversations about race, identity, and human rights. The exhibit shows Montpelier’s connection to the national story of slavery, and the economic, ideological, and political factors that cemented it in the newly created American nation and Constitution.
- The reconstruction of the **Birthplace of President James Monroe**, just outside of Colonial Beach, will include a rebuilt colonial home, a scenic walk (complete with granite historical markers along the trail telling the story of Monroe’s career), a bicycle trail, a canoe launch, benches, an overlook, and a picnic pavilion.

Other Historic Events

A few other historic events, happenings, and anniversaries in 2018:

- 2018 is the 200th anniversary of the town of Clarksville.
- May Faire celebrates the county’s cultural history at the **Mathews County Historical Museum** on May 5.
- Memorial Day 2018 will mark the 150th anniversary of the very first Decoration Day National Observance at **Arlington National Cemetery**.

#VAFILM

The film industry has a significant economic impact in Virginia, building on an innovative film incentive program and a strong homegrown industry. In 2015, the total economic impact of Virginia’s film industry was \$615.6 million. Since fiscal year 2011, film projects receiving incentives in Virginia have produced a return of \$11 to the Virginia economy for every \$1 invested.

The seventh season of the award-winning Showtime series “**Homeland**,” starring Claire Danes and Mandy Patinkin, began filming in Central Virginia in September 2017, and is expected to continue through March 2018. The presence of the high-caliber show has generated significant economic activity, jobs, and media buzz in each locality touched.

AMC’s “**TURN: Washington’s Spies**,” PBS’ “**Mercy Street**,” along with the films, “**Juanita**,” “**Permanent**,” “**Believe**,” “**Burning Sands**,” “**Swing Low**,” “**Art Show Bingo**,” and “**Public Affairs**,” were also filmed in Virginia in 2016 and 2017.

While both “TURN: Washington’s Spies” and “Mercy Street” ended their respective four-year and two-year runs in 2017, the economic impact continued through tourism opportunities and products built around themed experiences. Popular film and history trails brought visitors to Alexandria, Petersburg, Richmond, and Williamsburg, all of which either served as the film location or story setting for the two fan-favorite series.
